

[illegible]

The screenshot shows a Java IDE with the following components:

- File Explorer:** Shows a project structure with a package named `src > App.java` and a class named `hapusDataPenumpang()`.
- Terminal:** Displays the execution of a Java application. The output shows a menu with 5 options:
 1. Tambah Data Penumpang
 2. Tampilkan Data Penumpang
 3. Edit Data Penumpang
 4. Hapus Data Penumpang
 5. Exit
 The user selects option 4. The program prompts for a ticket number, and the user enters 1. The program then prompts for a destination, and the user enters "Samarinda - Sangata". The program then prompts for an age, and the user enters 22. The program then displays the ticket information: "Tanggal dan Jam Keberangkatan: 23 april 2024 22.22" and "Harga Tiket Biasa: 50000". The user then selects option 1, and the program prompts for a ticket number to delete. The user enters 1, and the program displays "Data penumpang berhasil dihapus!".
